Suggestion

1. **Implement a locking system for each lesson.** For example, if users do not complete the alphabet section, they will not be able to proceed to the next lesson.
2. **Include engaging animal visuals** when the website opens or when a lesson is selected to make the platform more engaging.
3. **Use a clear and readable font** throughout the website.
4. **Provide instructions at all times** to guide users on how to use each part of the platform.
